PROFESSIONAL SUMMARY

Data and integration analyst with 7+ years in IT. Experience with Qlik Sense, SQL Server, REST APIs, Power BI, Power Automate and Python, including level 3 support and process automation. Looking for data, integration and automation roles, open to development.

TECHNICAL SKILLS

Data and BI: Qlik Sense, QlikView, Power BI, SQL Server, Data Warehousing, ClickHouse, Excel
Integration and automation: REST APIs, Postman, ERP ↔ WMS, Power Automate, PowerShell, UiPath, VBA, Stored Procedures (SQL Server)
Cloud and platform: Azure (AZ-900), Windows Server, Active Directory, IIS, SharePoint, Microsoft 365
Development and AI: Python, JavaScript, SQL, Git, knowledge bases (RAG), AI-assisted development, prompts and agents (Claude Code, Codex)
Support and delivery: Tier 3 support, SLAs, ServiceNow, Jira, MS Project, technical documentation

EXPERIENCE

Grupo Latyn Argentina | Argentina Oct 2025 - Present

Functional Analyst (Data and Integrations)

- Co-developed with a colleague and AI a QlikView to Qlik Sense report converter: each report is ready in under a week (before: 1 to 1.5 months by hand) and the automatic conversion takes about 1 h 30 min.
- Migrated reports to Qlik Sense and Qlik Cloud with a SQL Server Data Warehouse as the middle layer.
- Built a Python tool that calculates bank fees from statements pulled by API with configurable rules, validated against the manual calculation.
- Created a monitoring dashboard for the expense and ERP integration for Treasury, and diagnosed interfaces and .NET APIs between ERP and WMS.

Acciona IT | Argentina Mar 2025 - Jun 2025

Functional Analyst

- Requirements gathering, functional testing and validation of changes.

Accenture | Argentina Jul 2019 - Mar 2025

Business Architecture Senior Analyst *Jun 2024 - Mar 2025*

- Technical-functional lead in Argentina for Microsoft 365, SharePoint, SQL Server and Power Platform.
- Tier 3 support with teams in India and the Philippines within SLAs. Trained new team members.

Business & Integration Architecture Analyst *Jun 2021 - May 2024*

- Global B2B support on SharePoint, SQL Server and Power BI; SQL Server validations and alerts with Power Automate.

Business & Integration Architecture Associate *Jul 2019 - Jun 2021*

- Level 3 incidents in SharePoint, MS Project and Office 365; technical documentation in ServiceNow.

EDUCATION

University Technician in Computer Networks and Telecommunications | Universidad Siglo 21 | 2021 - 2024
